<b>Please provide a report of your findings and data.</b>	<p>As for today, nov 5, 2018, we have enrolled approximately 1100 study subjects from 22 study sites, with allocation ratio 1:1 between study sites. We have had some problems with slow recruitment from several study sites and also some study sites that couldn't pursue with their planned study participation. Hence the progress has been delayed and we are still recruiting new study sites and study subjects to reach our goal of at least 1200 included study subjects.</p> <p>We have not started to analyze data. Follow-up of enrolled participants is performed through email surveys or telephone interviews.</p>

**Please let us know whether having a mentor has been helpful or not**

I think that having a mentor could be helpful, however, in this project I've had very experienced supervisors that are also very active in the actual research project.
