Have there been any problems or issues with starting or continuing this project? If so, what impact will that have on your planned completion date?

We had to wait for the Ethical Committee's decision, to start the project, but we're in time to finish the research by the planned time.

Have you discussed the project status and any problems with your Mentor?

We discuss monthly about the project status and problems with the study.

Please provide:

- A synopsis of your findings and data so far (max 500 words)
After the acceptance of the Ethical Committee we searched for volunteers from the department of psychology to get help from them. We planned and created the questionnaire so far. We have 30 questionnaires filled out as a probe to make sure about its lucidity. The final version of the questionnaire was finished by the end of the school term, so we'll start data collecting September 2017, at the beginning of the next school term. We planned the mobile application, and consulted with the programmer.
- A current budget on how much you have spent to date. Receipts may be requested.
We haven't spent money on this study so far, our first expense will be printing costs.

- Add any other information you feel we should have at this stage.
- Sign and date the form and return to the ESC Office.

Once received and assessed, you will be contacted regarding the final payment.
