Is the person responsible for the project different to the person named in box A

No

Title of the project	Stigma and discrimination of Siberian people living with HIV(PLHIV) by Ob&Gyn specialists and discrimination-reduction programming.
Comprehensive description of the project: rationale, methods, approach, outcome (max 500 words)	<p>Rationale. A number of studies have shown that many people living with HIV (PLHIV) require adequate assistance regarding their reproductive health including consulting on contraception and infertility issues. At the same time HIV-related stigma and discrimination (S&D) by medical care providers are recognized as key factors preventing patients from receiving medical and counseling services. Currently there is an increase of PLHIV number in Russian Federation, the most significant among women of young reproductive age. Irkutsk Region, as well as all Eastern Siberia, are characterized by extremely high prevalence of HIV infection, however there is no data regarding HIV-stigmatizing attitudes within local Ob&Gyn service providers.</p> <p>Methods. To identify HIV-related S&D we will assess HIV stigmatizing attitudes among Ob&Gyn doctors and nurses in Irkutsk Region's healthcare service settings and test some of the factors associated with HIV/AIDS-related stigma, using online survey, based on 2 validated tools: "A brief, standardized tool for measuring HIV-related stigma among health facility staff" (Srithanaviboonchai K, 2017) and "Questionnaire for doctors and nurses' views on people living with HIV/AIDS" (Vorasane S.,2017).</p> <p>The results of survey will be used to create 2 different educational programmes ("Standart course" and "Training for trainers") for Ob&Gyn specialists in 2 random health care settings (with pre-test and post-test to estimate the efficacy of interventions). The most effective educational approach to decrease stigma and discrimination of PLHIV will be disseminated and utilized in all Regions of Eastern Siberia.</p>
When would it start / finish? (Max 20 words)	It will be started on the February 2018 and finished on the June 2019.
Where will it take place – country / town, establishment? (Max 20 words)	It will take place in Irkutsk Region (Russia), in the Ob&Gyn health care settings.
Objectives and needs identified. (Max 100 words)	The objective of the project is to decrease stigma and discrimination of PLHIV by Ob&Gyn specialists in Eastern Siberian health care settings.
Sector in the area of contraception, sexual and reproductive health:	Reproductive health
Is it a 'new' project?	Yes
What outcomes will be measured? List. (Max 50 words)	<p>Primary outcome: levels of healthcare professional's HIV- related stigma, measured by a score-based system, using the questionnaires.</p> <p>Secondary outcomes: stigma-related demographic factors including age, education; professional factors including years of practice, health care settings (state, private), professional conditions of work; levels of stigma before and after educational programmes implementation.</p>

Do you foresee any reasons (political, climatic, etc) why this project may be adversely affected? (Max 20 words)	No
Are there other partners or organisations supporting this same project?	No
Will this be part of a larger fund or stand alone? (Max 20 words)	Stand alone
Have you already obtained any funding or still awaiting a response towards this project?	No
How much money is required for the project in total?	12 500 euro
How much are you requesting from ESC?	8 000 euro
Please provide a detailed budget here. This must include total costs and, if appropriate, list those costs associated with your grant from the ESC.	<p>We request 8 000 € to partially cover for:</p> <p>development of the study design and protocol 1200 euro development of a database in RedCap 800 euro organization and management 1000 euro costs associated with interviewing 4000 euro statistical analysis 1000 euro</p>
The ESC may not be in a position to fully fund all applications; you must indicate whether / how part funding may impact your project. (Max 100 words)	It may influence the educational part of our project.
Who will oversee the budget & keep accounts? Provide name, title, contact number and email address	Valentina Stepanova, the Chief Accountant of Scientific Center for Family Health Protection and Human Reproduction, will be responsible for overseeing the budget and keeping the accounts.
If you or your department has received funding from ESC for a project or course before, please give details of the date of funding, contact person and title of project or course.	<p>The best practice for providing contraception in adolescents: training course for Ob&Gyn specialists (16-17 th of September, 2016, Irkutsk) Applicant: Suturina Larisa (Russia) Allocated by the ESC: 3 000 euro</p> <p>Fundamental and applicative aspects of contraception: interactive seminar (29-30 June 2012) Applicant: Suturina Larisa (Russia) Allocated by the ESC: 5 000 euro</p>

We, as responsible agents for this project, agree to the following 8 points:

	yes
We agree that all monies will be spent appropriately	
We agree to work with the nominated Mentor	
We agree to advise you at the earliest time if this project is delayed or cannot be completed	
We agree to provide an interim report(s) part way through the project and a final report to the ESC within 6 months of the end of the project.	
We agree to provide the ESC with an interim budget(s) and a detailed budget at the end of the project. NOTE funding will be awarded in stages and will be dependent on appropriate reporting.	
We agree to provide receipts for monies spent if requested.	
We agree that if we need to make any significant changes to the duration, contents or funding of the project after it has been awarded, I/we will advise the nominated mentor.	
We (the applicant) agree to acknowledge the ESC as a donor in any publications, submission of abstracts and oral communications resulting from this project. Please inform the ESC Office where and when the data is to be presented and/or published and note that ideally any manuscript should be sent to the ESC journal in the first instance.
